

TrueUC Platform

Enable your mobile workforce.

50% of employees often work remotely. MetTel's TrueUC provides a seamless and consistent communications experience on PC, tablet or smartphone. It's ideal for companies of any size with geographically dispersed teams and mobile employees working at the office, at home, or on the road.

Benefits

MOBILE-CENTRIC

59% of employees use mobile devices to run line of business applications. TrueUC is ideal for using a smartphone or tablet for business use. It enables employees to use their business identity and phone number when calling a customer, maintaining a professional image.

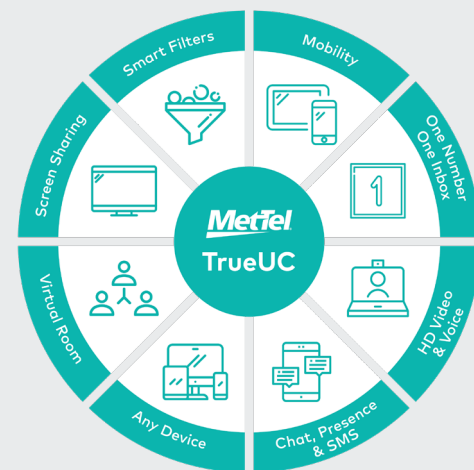

MORE PRODUCTIVE MEETINGS

We spend 20% of our time weekly searching and gathering information. With TrueUC's smart filters, you can easily find all your files, calls, messages and colleagues in one place, keeping you focused on your collaboration and minimizing the need to shift your attention away from your conversation. Integrates industry-leading cloud applications, such as Office 365, Salesforce, Google Suite, Box, Twitter and more—into one unified view.

TrueUC Platform

- UC-One App (Desktop & Mobile)
- Cloud PBX / Desk Phone
- Mobile Service & Device
- Mobile Device Management
- Bruin Communications Management Platform
- SD-WAN / Cloud-managed Firewall / Broadband / Managed Wi-Fi

Additional Benefits

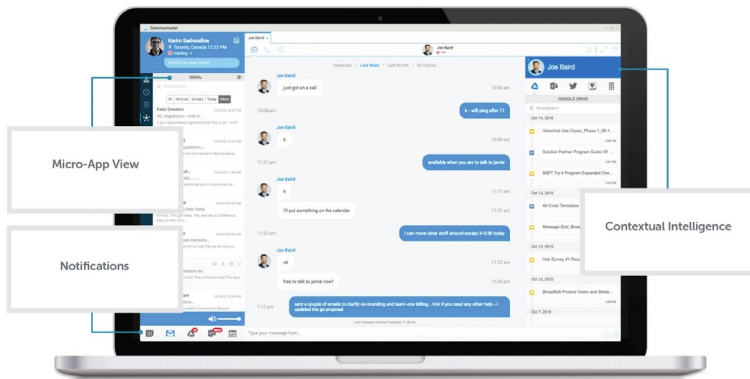

SOLVE PROBLEMS IN REAL TIME

91% IT executives see improved collaboration after UC is implemented. Need to collaborate with colleagues or customers on the fly? TrueUC makes it easy to get on a call, screenshare, video conference and share files with anytime, anyplace meeting rooms.

ONE STOP SHOP

88% of UC buyers report significantly faster problem resolution. MetTel's platform delivers a completely integrated communication solution with a single bill for all mobility, hosted, UC, SD-WAN, Wi-Fi services, and more.

Road Warrior Bundles

Combine TrueUC with your mobile device of choice to achieve a completely mobile workspace.

Features

CALLING, CHATTING & MEETING

TrueUC enables mobile calling, messaging, and meeting with anyone, from any device. It includes HD video, voice, SMS, chat, presence, screen sharing, and conferencing in a single easy-to-use cloud application.

SMART FILTERS

Everything you've shared with a contact in email and calendar is dynamically displayed while you're communicating, bringing relevance and context to your conversations and removing the chaos of app switching and searching for files.

MOBILE MANAGEMENT

MetTel MDM creates a single vendor for complete endpoint management, with a single portal and single help desk and always achieves the biggest cost-savings with our extended lower plan rates across the board.

SMS DESK PHONE MESSAGING

Desk phone number can receive and reply to the text messages via the app. One number connects all forms of communication.

VOICE INTEGRATION

Go Integrator O365 enables click-to-call in Outlook, saves messages as emails, and more. Go Integrator CRM links customer relationship apps such as Salesforce with integrated functionality like click-to-call, click-to-save, click-to-sort interactions.

OPEN APIS

Our RESTful APIs empower users to imagine and develop limitless integrations.
